PALAZZETTI

EASY LINE. THE PALAZZETTI COLLECTION WORTH KNOWING.

Heating one's home with a Palazzetti is a desire that everyone can fulfil. The Easy Line series offers models that satisfy the needs of who does not want to give up on the quality of the material, the functionality and the high performance that only a Palazzetti can guarantee. When you choose a product from the wide range offered by the Easy Line, you are taking all the quality and services of Palazzetti home with you at a very competitive price.

Easy Line includes a range including fireplaces, mantelpieces and wood-stoves. Different products for different styles and characteristics, designed to meet the different needs while maintaining the quality standards that distinguish the entire Palazzetti production. A classic style, country or for mantelpieces that to combine with the cast iron Easy Line fireplaces, out and out heating systems apt to carry the heat throughout the house.

Like the Easy Line wood-stoves, in precious majolica, decorated by hand that allow to heat even the near rooms and are a handy food warmer. Versatile, beautiful and safe like only a Palazzetti can be.

STELLA WHIT OVEN

STELLA

FIREPLACES EASY_LINE

The range of Easy Line fireplaces includes four product lines apt to meet all the usage and heating needs. From the more basic fireplaces intended to heat the room in which they are placed and to cook food, to the more sophisticated ones apt to heat even the near rooms up to those designed to give new life to existing fireplaces. Whatever idea you start with, Easy Line has the right solution to create comfort and atmosphere in total safety.

PALEX

Are the basic hearths made with refractory material with a high content of alumina ensuring an almost unlimited duration and the maximum accumulation of heat, which is then transferred uniformly by radiation. Ideal for heating a room and for cooking.

MONOBLOCCO

A safe and resistant hearth that develops considerable thermal power and with a separate channelling heats homes up to 150 m²*. Functional, thanks to the comburent air control, it allows obtaining high performances and the optimization of consumptions. The size of the fireplace together with the disappearing sliding glass, allow it to be used as a grill.

TERMOPALEX

A very versatile hearth: heats the radiators of houses above 200 m²*, produces hot water for a whole family, it works as a heating system on its own or integrated with an already existing one. It can also be used as a grill.

**According to the model and for houses built according to the normative on energy saving 10/91, with a thermal requirement of 30 kcal/h/m³ and rooms 3 metres high.*

EASY INSERT

A hearth able of transforming an old smoky and scarcely functional fireplace into a real heating system that is safe and efficient, without any need of masonry work. Easy insert 76 may also be installed with the ventilation kit to warm environments up more easily.

STOVES EASY_LINE

SMALL DIMENSIONS, GREAT PERFORMANCES FOR THESE STOVES THAT COMBINE TO ALL THE BENEFITS OF A HEALTHY AND SAFE HEAT WITH THE PLEASURE OF PARTICULARLY CONVENIENT PRICE.

The Easy-Line stoves are solid and resistant with reduced dimensions and compact form to be inserted harmoniously in every room. The functioning guarantees great performances: the produced heat is distributed homogeneously thanks to the mix of two heating principles, by irradiation and convection; the control of comburent air allows obtaining a great saving of consumptions. Covered in enamelled majolica for a ravishing retro style, every detail has been painstakingly taken care of making these stoves stand out even in the most modern contexts.

*Section with deviator
High efficiency smoke circulation
in cast iron: low consumption for
a caloric output.*

ALESSIA

cm 47x44x80h - weight: 120 kg

Stove with structure entirely in cast iron, solid, resistant, covered in enamelled majolica. Completed by a self-cleaning glass. Extractable ash container, handle with wooden inserts.

Global capacity: kcal/h 6.790-kW 7.9

Performance: 79.7%

EASY_LINESTOVES

DIANA

cm 45.5x48.5x107.5h - weight: 100 kg

Metal stove with front metal inserts.

Fireproof hearth, ceramic glass with self-cleaning system. Extractable ash container and brazier shaking system. Practical and functional cast iron cooktop.

Global capacity: kcal/h 7.050-kW 8.2

Performance: 75.3%

DORY

cm 45.5x47x108h - weight: 100 kg

Stove with ceramic sides and front. Cast iron hearth, ceramic glass with self-cleaning system. Extractable ash container and brazier shaking system. Practical and functional cast iron cooktop.

Global capacity: kcal/h 7.050-kW 8.2

Performance: 75.3%

STOVES EASY_LINE

FEDERICA WITH OVEN

cm 54x46x133h - weight: 180 kg

oven: cm 24,5x25,5x35,5

Stove with a structure entirely in cast iron covered in enamelled majolica. Completed by a self-cleaning glass, extractable ash container, handle with wooden inserts and a practical and efficient oven with thermometer for baking. The smoke circulation in the oven allows to keep the temperature homogenous for better baking results.

Global capacity: kcal/h 8.084-kW 9.4

Performance: 81.1%

STELLA

cm 50,5x54x104h - weight: 140 kg

Stove covered in ceramic. Cast iron hearth with self-cleaning system. Extractable ash container and brazier shaking system.

Global capacity: kcal/h 8.000-kW 9.3

Performance: 75.2%

COVERSEASY_LINE

The Palazzetti collection worth knowing. It is worth it because it offers a wide range of models at very, very competitive prices. Without giving up on quality. Coverings vary for form, style and materials, designed to complement and enhance the personality of every house and every architectural environment: from tavern to more modern spaces, from country-style to classical atmospheres. The Easy Line range also includes a modular program to equip the fireplace wall, apt to furnish every area with coherence and personally. The Easy Line offer is so diversified and articulated so it satisfies any need for style and size. For this reason we do not offer a specific "made to measure" service because it is unnecessary and doing so enables us to contain prices even more.

QUOTES KEY

Red paalex:	64	The photos of the coverings of country-style fireplaces are indicative. In fact, the use of natural stone requires us to abide to the conformation and characteristics and therefore, for example, the cut could differ, as well as the colour or the grain. The lateral benches are always optional. The asterisk indicates the version in photos.
Orange paalex:	66	
Black paalex:	78
